

## Implants Home Care Instructions

After your procedure, apply all three products included in the StellaLife Recovery Kit four times a day. Please refer to the details provided below:

1. Following the procedure, use the Recovery Kit daily for 7-10 days.
2. After five days, dip a Q-Tip in the StellaLife rinse and gently swab the healing abutment clockwise for 1 minute, 2-3 times a day.
3. Keep following step 2 for a duration of 2-3 months.
4. During your final checkup, the doctor will advise you to continue with step 2 around the junction between gum and future crown twice daily as part of your regular oral hygiene routine.
